

Epson Series UV Flatbed Printer

FB-0906

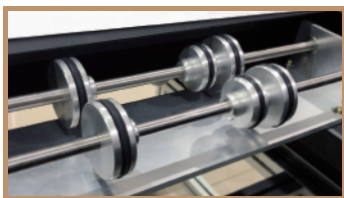

- 2/3 Printheads
- 4/6/7/8-Color
- Variable Dot
- White & Varnish

• Features

Designed X direction width set at 90cm instead of 60cm, greatly reduce the pass number of each print work which will effectively increase the printing speed of same resolution.

High-power independent vacuum system. Much more functional than the vacuum system with low-power internal vacuum fans.

Automatic media height detecting function, provide great help for setting the proper print height.

Anti-collision system is equipped to protect the printhead and carriage all the time.

Printer and base rack using split design (base rack is optional), compact and easy to place, greatly reduce the package size, save the transportation fee.

• Specification
